This **events manager plugin** will make your event management, selling event tickets, event registration, event RSVP and **event booking WordPress** easier than ever! It will convert you from a newbie event manager to a powerful **event manager pro**! From **local events** to a whole **community event**, managing them will be smooth as butter with this **WooCommerce events manager** plugin which also has **Event RSVP**.

🌵 **Multi Event and Single Event** - Create an event with a single starting and ending date or add multiple events with multiple starting and ending dates on event bookings WordPress.
🌵 **Event List** - Show multiple events on your page with an events list feature. You can list related events to let users choose from similar events they want to attend.
🌵 **Recurring Events** - Enjoy creating multiple events and make those current events repeat daily, weekly, monthly or annually with the best event planner on WordPress.
🌵 **Event Calendar** - Eventin, the #1 event calendar on WordPress brings a better user experience by providing straight designs. Event attendees will be able to see all the available live events and select the specific date to see which event bookings are taking place. Both shortcode and Elementor widgets are available for Eventin. Check calendar module documentation for more details. You can sync the events with your event calendar. This makes Eventin the perfect **Event Calendar plugin on WordPress**
🌵 **Event Filtering on Event Archive Page** - Add an option to filter events, event lists, and registration based on event category on your event archive page.
🌵 **Timezone Support for Event** - Set your timezone for your event according to your location to make it easier to check the exact time of the event, event registration and all the meetings that come with it.
🌵 **Unique attendee ticket for each attendee** Track your event guests with unique attendee tickets for a better attendee management.
🌵 **Multiple Ticket** - Create multiple types of event ticket for events such as 'Early Bird', 'Regular', 'VIP' and set different prices for the event tickets.
🌵 **Zoom Integration** - Host online events and meetings smoothly with Zoom integration and notify your users with an email for event registration with Zoom details.
🌵 **RTL Language Support** - Set your website details with RTL language support to make it user friendly for each event attendee.
🌵 **Actionable Event Ticketing System** - Get the complete solution from creating, selling to printing event tickets during event registration in order to manage your sales.
🌵 **Update Attendee Details from Event Ticket Email by Event Attndees** - Event ticket buyers or event attendees can self-update ticket details after purchase by clicking on the event ticket details directly from their email.
🌵 **Download Attendee Tickets from Admin Dashboard** - Find all of your attendee tickets and download them directly from the admin dashboard.
🌵 **Admin can send email including unique event ticket IDs for each attendee for single / multiple purchase** - Setup your event organizer message to send emails with unique event ticket IDs to attendees or purchasers.
🌵 **Report of all event attendees** - Get a detailed report on all event attendees to track attendee status.
🌵 **Trendy Multi Repeater Schedule** - Get support for repeater event planner and set multiple schedules for events.
🌵 **Event Speaker List** - Show your event speakers to your guests by creating a speaker listing on your

event page.

Writing sample by Inekhar Ahmed. Content and screenshots © Arraytics. For portfolio review only, do not copy or redistribute.

🌵 **Multi Speaker functionality** - Add multiple speakers to your events to encourage guests to buy your event tickets.
🌵 **Speaker Single Page** - Enjoy a good event planner with a single page for your speaker to highlight your event speaker details and share their company logo, social media links, company URL and more.
🌵 **Elementor Builder Shortcode** - Get multiple customization options with the Elementor builder shortcode to display your content on your event listing pages.
🌵 **WooCommerce Payment System** - Make the process of buying event tickets simple and easy for your attendees with WooCommerce Payment System.
🌵 **Manage event ticket stock with WooCommerce order status change** - Your event tickets will be managed simultaneously with WooCommerce order status and show the updated ticket list on your event page automatically for a better event management.
🌵 **Remove attendee / ticket data of failed payments after a defined time** - Set a time limit for purchaser's to clear their payment for event tickets after which attendees will be removed and ticket stock will be updated again.

Eventin Pro Event Management Features Giving You More Customization Options:

🧩 **RSVP** - No more staying confused on how many event attendees will come or not because now with event RSVP your event management will be smoother than ever before.
🧩 **10+ Multi Event Widgets** - Get multiple event widgets to design your event page on WordPress with event details.
🧩 **5+ Speaker Widgets** - Create attractive attendee speaker pages with speaker widgets.
🧩 **3+ Single Event Widgets** - Spend less time designing your event organizer page by using single event widgets.
🧩 **Invoice Printing Options** - Store your event ticket sale records by downloading and printing your invoices.
🧩 **Frontend submission** - With the frontend submission feature, assigned attendee user roles can create event from the frontend, sell tickets online, and scan tickets with QR codes. This makes Eventin the perfect **frontend event manager wordpress plugin**.
🧩 **Filter events by tag name (Elementor widget)** - Add event filtering option with tag name using Elementor widget.
🧩 **Add unlimited F.A.Q. to an event** - Answer common questions for your events list by adding unlimited FAQs for each event.
🧩 **Event banner option with color or custom image as banner background** - Customize your event page with a custom banner image or color that matches your event theme.
🧩 **Enhanced event dashboard with more data and advantage of searching, sorting option** - Track the performance of your events by checking event data from your dashboard.
🧩 **User notification about upcoming event** - Remind users of upcoming events with reminder notification.
🧩 **Show counter on registration single page banner** - Add a **count down event** timer to your event page for users to easily determine how much time is left before the event begins.
🧩 **Multiple event templates for better user experience** - Choose from a series of templates to find the perfect match for your event.
🧩 **Show event attendees in event details page** - Let guests know who is attending the event with attendee list in event details page.

🧩 **Generate Unique ID & Show ID on Event Tickets & Reports for Attendees** - Keep track of your attendees with unique ticket IDs which will appear on attendee tickets and reports.

Writing sample by Ifrekhar Ahmed. Content and screenshots © Anagrics. For portfolio review only, do not copy or redistribute.

🧩 **View/Export sorted & filtered attendee report as CSV** - Get your attendee reports in CSV format to manage event attendees.

🧩 **Unlimited extra fields for attendee registration form/Export data as CSV Report** - Add unlimited field for attendee registration form and check attendee submissions by exporting data as CSV report.

🧩 **Multivendor Event Marketplace(Pro)** - Multivendor event marketplace is an on-premise marketplace platform for events. It allows individuals or vendors to manage sales functionality in their very own micro event services with all the necessary business features. For this solution, Eventin integrated with the 📢 Dokan Multivendor Plugin. Check our documentation and video for more details.

🧩 **Front-end Event Management(Pro)** - Front-end event submission permits users to provide access to multiple users in different roles to submit events on their website. Authorized users can create events on your website from the front of their dedicated panel on your website. They do not need to access the back end of your WordPress admin panel. Check our documentation and video for more details.

🧩 **PDF Certificate Builder(Pro)** - Eventin's user can design and issue PDF certificates for the event attendees. They are allowed to create multiple certificates for multiple events and send them with a single click to all the attendees. Check our documentation and video for more details.

- Events List
- Events Tabs
- Schedule List
- Schedule Tabs
- Speaker Profile
- Advanced Search
- Events with Calendar

Check out more details here.

Features & Benefits

🚀 Multi Event and Single Event

WP Eventin provides options for both single and multiple events. Depending on your requirement, you can schedule a single event with a single starting and ending date. You can also add multiple events with different starting and ending dates. Customers can see real time event information. There is also countdown for events.

Whether your events are in-person or virtual events, Eventin boasts professional features backed by our international level team of developers and designers. Check single event template and multi-event template demo before starting.

🚀 Create Your Own Schedules

Writing sample by Iftekhar Ahmed | Content and screenshots © Arraytics | For portfolio review only | Do not copy or redistribute

With Eventin you can create multiple schedules which are also customizable. If you ever feel confused about how to create schedules, you can always check the documentation. Or, you can also check out the youtube video on how to create event schedules using Eventin.
View the demo page if you want to see it live.

[youtube https://www.youtube.com/watch?v=mwJzkXh8nT0]

🚀 Create Multiple Speaker Profile

Create profiles for as many speakers as you want. You can add short descriptions, and upload their images, and contact information i.e. social media links, and email. There are separate icons for all the most frequently used social media platforms.
Everything about how to add multiple event speaker profiles for Eventin is written in our documentation. You can also check out the demo page to get a clear idea about how it might look.

[youtube https://www.youtube.com/watch?v=FSC-jtN9xgg]

🚀 Event RSVP

Now with the event RSVP feature, you can send invitaion email with event RSVP, you can see a total analytical report from it, and customize the event RSVP options too. You can set the feature in such a way that the invitees or attendees can only response through the event RSVP until the total seat limit of your event is filled. Setting up the event RSVP is easy now because everything is in the Global Settings page.

🚀 Event Planner Schema for Google Rich Results

If you are an event manager, you know very well that the best way to get more visibility for an event is to be on the “events near me” search result page. Although it is easier said than done, we have taken care of the latter one. It's now very easy for you to add event schema markup for your event and your event website. All you have to do is click on a toggle button, and everything will be there.

🚀 Manual Attendee Event Registration

You can now register an attendee manually from the Eventin Dashboard and add any special guest or anyone who you might think had a problem with registering for the event.

🚀 Frontend Event Submission

By assigning specific user roles, those users can create event, sell tickets, and scan tickets with QR Code scanner. Customers can also book events from the frontend. This **frontend registration** feature will make event management smoother than ever. The front-end event manager will save you and your event attendees' time and effort significantly.

[youtube https://www.youtube.com/watch?v=OG-vZoJOIxM]

🚀 Multivendor Event Marketplace

Writing sample by Iftekhar Ahmed. Content and screenshots © Arkanist. For portfolio review only; do not copy or redistribute.

Multi-Vendor event marketplace is an on-premise marketplace platform for events. It allows individuals or vendors to manage sales functionality in their very own micro event services with all the necessary business features. Eventin integrated Dokan multi-vendor that allows users to create a Multi Vendor Event Marketplace. It creates a win-win opportunity for both the event organizer and the marketplace owner by sharing profits and commissions.

[youtube https://www.youtube.com/watch?v=aEUFAnqnuiO]

👉 Check Event Marketplace Documentation for more details.

🚀 Recurring Event Planner Feature

WP Eventin brings you the option to create Recurring Events. Now you can simply create a main event and make multiple events by selecting which days to repeat the event. You can select free or paid events to repeat for specific days, weeks, months or years. Seat capacity and tickets for each event can also be managed individually.

If you want to know how to create a recurring event, you can read our documentation. If you want to see how this feature looks, you can visit our demo page of this feature.

[youtube https://www.youtube.com/watch?v=g2EYaFdhlVo]

🚀 Speaker/Event Organizer Single Pages and Listing

WP Eventin lets you create complete pages for Speakers or Organizers. Showcase the most important people for your events. Create single profile pages and highlight your speaker or event organizer skills. Add speaker details, email addresses, company logo, url and social media links. List your speakers and event organizers on your event page to let your attendees know about them.

🚀 Buddyboss Integration

Buddyboss is arguably the best tool for creating your own online community. Now, with the Buddyboss integration, you can create your community with your event attendees. You can sell your courses, products, events, or sessions easily through Buddyboss.

Read our documentation to know how to set up and use BuddyBoss with Eventin.

🚀 Zoom Integration

Hosting and managing virtual/hybrid events can now be done very easily with the Zoom Integration with Eventin. You can sync your Zoom account with Eventin which will make your operations smoother. You can use all the functionalities that Zoom offer on Eventin here. Be it a virtual event or a hybrid event, Eventin has got you covered.

To know how you can integrate Zoom with Eventin, give our documentation a read and everything will be clear.

[youtube https://www.youtube.com/watch?v=p5mm_3P1jDg]

Remote office and similar work management requires powerful tools like Zoom to make sure all the communication is going on without any issue. Video conferences, online meetings, and chat sessions play a significant role in providing and maintaining communication between participants. WP Eventin has Zoom meetings integration to ensure you have a strong tool supporting your business.

Writing sample by Mukhar Ahmed. Content and screenshots © Anagrics. For portfolio review only, do not copy or redistribute.

🚀 Divi Integration

With Divi integration on Eventin, you can now build a visually pleasing event management website with ease. All you need to do is to download Eventin Divi Addon and you'll be good to go with Divi.

You can read our documentation to know how to build an event management website using Divi.You can also check out our YouTube video to get a visual tutorial.

[youtube https://www.youtube.com/watch?v=SrN9nPbqXpA]

🚀 FluentCRM Integration

You won't be limited with just managing events. Email marketing for event managers and events organizers has been made easy by Eventin. With FluentCRM integration, you can now email your targeted audience with your special offers and get leads in business.

To know how to set this up and use it, you can read the instructions from our documentation on how to set it up and use FluentCRM with Eventin.

🚀 Groundhogg Integration

We don't limit you within any boundaries, we give you options. That's why we came up with Groundhogg integration. So that you can go on with your email marketing with ultimate ease.

Check out our documentation to know how to set up groundhogg and use groundhogg with eventin.

🚀 Google Calendar Integration

The calendar integration allows the user to sync events listed in Eventin with the calendar of their respective smartphone. Be it Google Calendar or Apple Calendar or Microsoft Calendar, you can easily sync your upcoming events with Eventin.

We have documentation on how you can use calendar (Google, Apple, etc.) with eventin.

🚀 Pabbly Integration

Pabbly offers Email Marketing, Subscription Billing, Form Building, and Email Verification. This is almost the perfect package for any business person in today's world. Since Pabbly is so useful, we have integrated Pabbly with Eventin.

To know how to set up Pabbly and use Pabbly with Eventin, you can read our documentation.

🚀 Twilio Integration

Twilio offers Communication APIs for SMS, Voice, Video & Authentication. You can connect with your customers through any SMS or Calling channels on any platform.
By using Twilio with Eventin, you can connect with your customers or clients in an effortless manner. The more you can connect with your customer, the more you can generate leads.

To know how to set up Twilio and Use Twilio with Eventin, read our documentation.

Writing sample by Iftekhar Ahmed. Content and screenshots © Arraytics. For portfolio review only; do not copy or redistribute.

🚀 Zapier Integration

Zapier is a workflow automation software. You can design a certain workflow where for each action, the app gets triggered and launches another app which you've set up to open. With Zapier you can connect up to 5000+ apps.

With the Zapier Integration in Eventin, you can now trigger Eventin in any of your workflow. This will save a lot of your precious time. Your transition from one task to another will be flawless and smooth.

Check out our documentation to know how to set up Zapier with Eventin and use Zapier with Eventin.

🚀 WooCommerce Payment System

Worried about the payment system for your event? Leave your worries to us! WP Eventin supports WooCommerce payment gateway. Simply choose the best payment options based on policies, processing rates, and features.

WP Eventin uses WooCommerce to take payment, which provides freedom for using popular payment gateway via WooCommerce. This ticket plugin supports all WordPress versions and can be used to create any types of events.

🚀 Invoice Printing Options

You can print your invoice for individual participants. The function is integrated to print the invoice directly from the admin panel. Our invoice contains detailed packing slips and you can print the woocommerce pdf slips.

It is a good practice to include an invoice and a packing list when you are selling event tickets. The event invoice should contain all the required order details such as the name and address of your company, the billing address of your customer, and a list of all order items including taxes and totals. When you sell tickets internationally, it is a standard requirement in many countries to include an invoice.

🚀 Unite the Ticketing System

The whole ticketing system is now under a single umbrella. United ticketing system at WP Eventin provides full service from creating to printing tickets. You can even sell FREE or set a price for your event tickets. You can also sell tickets in the form of **eTickets** Check out the documentation to learn how to set it up. It's easier than you think!

🚀 Edit/Update Attendee Data after Ticket Purchase

WP Eventin allows you to update the attendee information like date, name after purchasing a ticket. If you have an unexpected mistake or want to change any previous information, WP Eventin lets you fix it instantly!

🚀 Admin Can Send an Email Including Unique Tickets ID of All Attendees for Single/Multiple Purchases

Writing sample by Iftekhar Ahmed. Content and screenshots © Arraytics. For portfolio review only; do not copy or redistribute.

Send email notifications to event participants and add the unique ticket ID of all attendees. WP Eventin also has options for adding single and multiple purchases. It lets you customize email messages and send them to your users.

🚀 Report of All Attendees

Reporting is always important for analyzing the results and profit calculations. WP Eventin brings the option to check 'Report of all attendees'. Get a clear, informative report for purchase history, number of sold tickets, and the number of remaining tickets at WP Eventin PRO.

🚀 Attendee Can Update Personal Details

WP Eventin allows users to update their own details in the event page. You can allow your participant to edit their details. Also, it's helpful for users to edit information submitted to the site. Read our documentation on attendees to learn the complete process.

🚀 Trendy Multi Repeater Schedule

Do you want to set a trendy schedule for the users? Want a repeated schedule for multi-time organizing? WP Eventin supports multi-repeater event schedules. You can get event booking like calendar events and repeated event schedules with WP Eventin on WordPress. The plugin is extremely user-friendly and well-designed for displaying the events calendar on the websites.
